SMART 1600 VACUUM CLEANER

Reference 4351

DESCRIPTION

Developed for the construction industry, the SMART 1600 is a robust and reliable piece of equipment, ideal for professional use in construction and renovation projects, offering high performance, durability, and excellent efficiency in vacuuming fine dust and liquids, even during intense work shifts.

FEATURES

Equipped with a 1,600W motor, AUTO-START system (the vacuum cleaner will automatically turn on when the connected device is switched on), and AUTO-CLEAN system (automatic cleaning of the filters at programmed intervals) maintaining constant suction power and extending the equipment's lifespan. It has a reservoir with a capacity of up to 30 liters of material. It comes with a remote control. It has a handle and locking casters for easy transport. Equipment operates on 220 volts/50-60Hz.

ADVANTAGES

- High power and efficient suction;
- Compatible with professional sanders;
- Automatic vibration filter cleaning system;
- Reduces dust in sanding and painting environments;
- Compact and easy to carry;
- It increases the lifespan of tools coupled;
- Low noise level.

INDICATIONS FOR USE

Ideal for use in construction or for general cleaning.

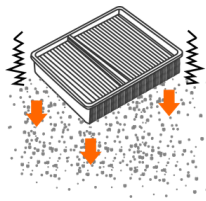

ADDITIONAL INFORMATION	
ENGINE POWER	1600W
SUCTION POWER	25 kPa
NOMINAL POWER AUX. OUTLET	2000W
FLOW RATE	1.7m ³ /min.
PROTECTION CLASS	IPX4
NOISE	82dB
NET WEIGHT	12.75Kg
GROSS WEIGHT	16,19kg
VOLTAGE	220V - 50/60Hz
GENERATOR/TRANSFORMER	3kVA

WITH CONTROL REMOTE

UNBLOCKING AUTOMATIC FILTER

	HEIGHT	LENGTH	WIDTH
PACKAGING MEASUREMENTS	64,5cm	45,8cm	37,5cm

ACCOMPANYING ITEMS

- 1 hose 4m long;
- 1 dust collection bag;
- 1 cleaning squeegee;
- 2 suction tips;
- 1 connection adapter;
- 1 telescopic extender;
- 1 remote control.
