# AIRLESS EXTENDERS WITH POSITIONER

Reference see below

### DESCRIPTION

Aluminum extension for airless painting, with tip guard positioner that allows adjusting the airless spray gun tip guard to various angles, making it easier to paint higher and hard-to-reach places.

### CHARACTERISTICS

- Aluminum body;
- Quick angle adjustment;
- Standard airless thread (7/8");
- Green anodized finish;
- Various sizes.

### ADVANTAGES

- Reach high places without using a ladder;
- Keep the jet at the ideal angle at all times;
- It reduces effort and increases productivity;
- It makes the paint more uniform;
- It makes painting ceilings, corners, and facades easier.

### REFERENCE:

30cm - code 5355  
 50cm - code 5356  
 75cm - code 5357  
 100cm - code 5358

### INDICATIONS FOR USE

For use in airless paint guns, improving operator ergonomics.  
 Recommended for floors, painting high walls, ceilings, cornices, exterior facades, and hard-to-reach places.
